

**What is it?** A unique residential camp for 24 outstanding high school students to explore various areas of biology alongside experts in their fields.

Each day includes learning the background knowledge needed to complete the labs for the day, as well as exploration of research opportunities. Students attend seminars and develop their laboratory skills through intensive hands-on activities. All this as they create connections with like-minded students from all around Canada while experiencing living at a university campus. The camp is open to all high school students, from grades 9 to 12.

**Where?** University of British Columbia – Okanagan Campus (Kelowna BC). Find more about the campus [here](#).

**When?** Sunday, July 13(11:00 am check-in) - July 17, 2025 (departure 4:30pm)

**Cost** \$975.00 (\$375.00 **non-refundable deposit** with registration). The balance (\$600.00) can be paid at any time until July 4, 2025. E-transfer is method of payment.

Cost includes meals and evening snacks, accommodation, lab materials and activities. Camp leaders stay with students on campus, providing 24-hour adult supervision.

***Please note that students coming from outside the Kelowna region can arrive a day earlier and check-in on the evening of Saturday July 12<sup>th</sup> for an additional fee of \$100.00.***

For those flying in from outside of the Okanagan, pick up from YLW (Kelowna International Airport) can be arranged with CBO.

## How to Participate

Complete and submit the [Camp Application form](#). The form included the required information for you to send the camp deposit and reserve your spot.
